

OFFICE OF THE GOVERNOR

March 20, 2009

Mr. Paul Kirsch
[REDACTED]

Dear Mr. Kirsch,

Thank you for taking the time to send me a copy of your book, "This Way to the Stars".

I am working hard to improve California's future and make progress in a difficult budget year. We've tackled politically risky things that no one wanted to touch in the past, and to me, that's progress. We now have the potential to make a positive difference in the lives of future generations by confronting problems that have been put off for many years: our budget, health care, education and our state's infrastructure.

I appreciate your thinking of ways we can improve our great state. Because of citizens like you, we will get California back on track. I believe we will turn today's temporary problems into permanent victories for the people of our great Golden State.

Sincerely,

A handwritten signature in black ink, appearing to read "Arnold Schwarzenegger".
